From a roadside check to a federal warrant

According to the FBI, González was driving the vehicle, which had travelled from Arizona to Albuquerque. The discovery of the consignment formed the basis for further federal prosecution. An individual arrest warrant was issued on 25 June 2024 in New Mexico County. [1]

The charge is possession of at least 400 grams of fentanyl with intent to distribute. The statutory threshold of 400 grams and the reported weight of the tablets, approximately 72 kilograms, refer to different things; they cannot be presented as two conflicting weight figures from a single expert analysis.
