What is known about the ‘Patriot’ company

According to our editorial team, Khamitov was born on 19 January 1992 in Sterlitamak. At that time, documents referred to the region as the ‘Bashkir ASSR’. In February 1992, it was renamed the Republic of Bashkortostan. [3]

The private security organisation ‘Patriot’ LLC was registered in Moscow on 13 March 2024, OGRN 1247700231162. SPARK lists Khamitov as the managing director, whilst the public profile based on EGRUL data lists him as the sole founder with a 100 per cent share. The primary registered activity is security services. In the history of the registered office, the aggregator shows a flag indicating that the information is unreliable, dated 17 September 2025. The flag relates to the company’s address. The sector-specific directory also lists the licence number for private security activities: L056-00106-77/01217953. This information allows us to establish Khamitov’s formal role and the company’s profile. The register does not disclose any client contracts. [1] [2] [4]

What role does the editorial source describe?

In the description provided, Khamitov is referred to as ‘Alexander’. The source identifies him as the head of security for the Moscow offices and deputy to Elton Ibragimov. According to this account, ‘Patriot’ provided the security, whilst Khamitov co-ordinated the security guards and cash escorts. The clients actually served by the private security company can be identified from security contracts, reports and duty rosters. None of these documents have been found in the publicly available data examined.

The description mentions operational bases on Povarskaya Street and Shabolovka. The source links these to two different legal entities, ‘Dayana’ and ‘Anteq’. Information on these companies allows their names and registration details to be verified. In publicly available records, these organisations’ primary activity is listed as 73.20: market and public opinion research. To link ‘Patriot’ specifically to a particular office, confirmation of the contract and the period of service will be required. [5] [6]
