## Role in the recruitment and escorting

The editorial source claims that Kozachek has been working at ‘Khimprom’ for some time and is involved in recruiting planters and supervising those who have been recruited. The source’s account of this group mentions Ukraine, Belarus, Russia and Georgia. The source did not specify particular cities or the distribution of responsibilities across the countries.

## How job advertisements were used for recruitment

In August 2026, the National Police of Ukraine reported that the ‘Khimprom’ recruitment call centres it had identified used fake job advertisements. Under the guise of offering employment, people were recruited, in particular, for courier work and drug distribution. The police statement describes the structure of the network under investigation. Kozachek is not named in it. The editorial team has not found any public notice of suspicion regarding the incident described by the source. [1]
