The author describes him as the most senior figure in their circle. The dossier reflects this stated role of ensuring security, without making any claim that Kostyuk works as a telephone operator. [1]

The materials also use the designation ‘Mymra’. These are retained in the profile for the purpose of cross-referencing mentions, rather than as individual persons. The publications do not provide sufficient grounds to attribute the described activities to ‘9999’ or ‘0900’. Therefore, the file has been included in the general section on call centres without such a label. The missing information regarding the hierarchy and distribution of responsibilities is not supplemented by assumptions. [1]

This material has been prepared by the editorial team’s analysis department based on collected publications. The roles and connections described are based on information from the source; the mention of an individual does not imply their guilt or current legal status.
